

28 December 1956

Mr. John T. Campbell, Head
BBC Monitoring Service
Caversham Park
Reading, Berks., England

Dear John:

I am returning herewith your official copy of the Minutes of our Ninth Meeting of the FBIS-BBC Coordination Committee. You will note that in the absence of Mr. Dulles it was approved and signed by the Acting Director of CIA, General Cabell.

We are still waiting out the results of the African survey and with the press of work it appears that it will be another month or six weeks before we will have a full report available. I am asking our Operations Staff to give consideration to Eastern European emergency coverage in order that I may also forward you some proposals on this subject.

Please extend thanks to all of the members of the BBC staff who made my visit and our meeting so profitable and pleasant.

Sincerely,

Chief, FBIS
